

MICROBMONITOR2[®] TESTIMONIALS

- *"I have worked with ECHA on developing the IATA guidelines for testing aviation fuel for microbial contamination and consider the MicrobMonitor2 test kit to be ideally suited to this purpose. Lufthansa Technik has used MM2 since its launch in 2002 when servicing aircraft and has found it to be a very trustworthy test method."*

Peter Westphal

(Projekt Manager Fuel, Potable water Quality & Technical Operations)

*Deutsche Lufthansa AG
Germany*

- *"As MicrobMonitor2 is approved by both Boeing and Airbus we have adopted it for checking all our aircraft. The kit can be used by our technicians without special training and always provides us with a clear measure of the condition of our aircraft."*

Stigur Sigurbjartsson

**Manager Material Control
Air Atlanta Icelandic**

- *"I wish all of my suppliers were like ECHA. Our customers are very satisfied with the performance of the test kit and ECHA service has always been excellent"*

Aidan Hamm
Business Development Manager
Blackwoods Paykels
Engineering Supplies
New Zealand

- *"We have been supplying MM2 since its launch in 2002 and have never had any issues regarding the performance of the test kit or quality of service from ECHA."*

Mark Knight
Managing Director
Med-Lab Ltd
Aerospace and Petrochemical Distributor
United Kingdom
