

grotamar® 82

Stops bacteria and fungi in diesel

New protective formula for modern diesel fuels

- specifically developed for diesel fuels containing biodiesel
- new protective formula to prevent premature oil degradation caused by ageing
- fast and highly effective against bacteria, yeasts and moulds
- excellent solubility and dispersion in all types of diesel fuels
- effectively protects steel, aluminium, copper and other non-ferrous metals against corrosion

Use biocides safely. Always read the label and product information before use. Keep out of reach of children.
